

Paguro 8500

Powered by a LOMBARDINI engine featuring FOCS technology; a unique injection system that makes for smooth and quiet running. The perfect choice for boats in the 48'-70' range that need to run the generator all day or night.

Peace & Quiet

Cocooned in a 4-stage soundproof capsule to keep noise to a minimum. Anti-vibration feet, both internal and external, coupled with the ultra quiet 1500rpm motor, ensure that the generator runs smoothly. The result is a generator that quietly does its job whilst you relax on board.

Independence

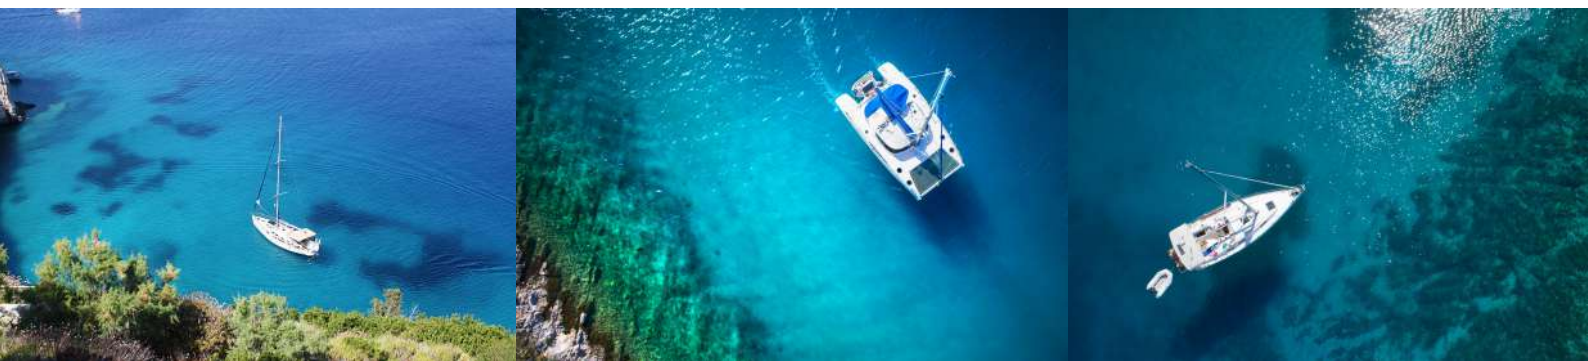

With a Paguro 8500 on board you can enjoy the full potential of your yacht. With a power supply greater than having shore power on board, you'll have the freedom to explore in comfort and safety.

Low Cost of Ownership

Designed for ease of maintenance and single side servicing, with an oil change hand pump for clean and easy oil changes. It also has the added bonus of longer service intervals than comparable generators.

Safe Hands

The Paguro 8500 is a tried and trusted design that has been in successful production for many years. The popularity of the LOMBARDINI & Paguro brands around the globe ensures that wherever you are in the world, you won't be far away from spares and servicing support.

Model

Paguro 8500

Dimensions (LxWxH)

860 x 580 x 650 mm (Inc. anti-vibration feet & all projections)

Weight

200kg

Sound level @ 7m

49 dB(A)

Cooling System

Fresh water cooling via heat exchanger

Continuous output

8kW / 8.5kVA

Peak Current for Start-Up Loads

90A (2 seconds)

Voltage Stability

230V \pm 5%

Frequency Stability

51 Hz \pm 1.5 Hz

Starter System

12V electric start

Remote Control Panel

Paguro 8500 control

Auto Start

Available as an option

Engine Manufacturer

LOMBARDINI

Engine Type

LDW 1404

Engine Displacement

1372-4 ccm

Speed

1500 rpm
